

Daily Oral Care is of utmost importance. Please ensure that oral hygiene care is being provided to residents that require assistance.

ORAL CARE RECOMMENDATIONS

NATURAL TEETH:

- Brush twice daily with an antibacterial toothpaste. The use of an antibacterial mouthwash (such as Listerine) is also beneficial
** It is not recommended to use mouthwash for those with Alzheimer's or Dementia.

PARTIAL OR FULL DENTURES:

- All dentures should be removed at night, cleaned and then allowed to soak in water with a denture cleanser such as Polident
** It is not recommended to use Polident (denture cleansing tablets) for those with Alzheimer's or Dementia.
- Any broken or lifting dentures should be reported and a referral made to On-Site Dental Direct for treatment.

EDENTULOUS:

- Brush or swab oral tissues and tongue daily then rinse.
